

NETSFORLIFE

People of St. Michael's! You are invited to participate in the fight against malaria by contributing to the 2009 Diocesan Outreach Project: NetsforLife®.

Every day 3,000 children die from malaria and every year, 300-500 million people are infected with this deadly yet preventable disease. It doesn't have to be this way!

NetsforLife® and partner Episcopal Relief and Development are distributing insecticide-treated nets in remote regions of sub-Saharan Africa where the most vulnerable victims of malaria are often pregnant women and very young children. The purchase of one \$12 insecticide treated net can last up to five years and save three lives.

Give a net in thanksgiving for a special child in your own life - it's the best \$12 you'll spend all year!

Please give generously and joyfully to NetsforLife®! We can all make a difference in the world and working together we can be living, loving examples of the kingdom of God here on earth.

St. Michael's ingathering for the 2009 NetsforLife® Outreach Project is Sunday, November 15th. Make checks payable to St. Michael's with NetsforLife in the memo line. Thank you!

A partnership for Malaria prevention in Africa
